

THE AUSTRALIAN COMMONWEALTH'S FATE IS IN YOUR HANDS

“The division of the United States into federations of equal force was decided long before the Civil War by the high financial powers of Europe. These bankers were afraid that the United States, if they remained as one block, and as one nation, would attain economic and financial independence, which would upset their financial domination over the world.” --[Otto Von Bismark](#)

“Right after the Civil War there was considerable talk about reviving Lincoln’s brief experiment with the Constitutional monetary system. Had not the European money-trust intervened, it would have no doubt become an established institution.” – [W. Cleon Skousen \(HISTORIAN\)](#)

A popular and respected Canadian Attorney in 1934 Stated that he could end the depression immediately. 70 years after Lincoln’s assassination he also raised the allegation that Abraham was assassinated at the whim of the international Bankers during a five-hour speech to the House of Commons where he also blasted Canada’s debt based money system.

Mc Geer’s 4 point plan was;

- 1...[National Bank](#)
- 2...[Credit control by Tax](#)
- 3...[Internal Trade Dept](#)
- 4...[Foreign Exchange office](#)

1877; the meeting that year of the American Bankers Association; the membership were urged to do everything in their power to put down the notion of a return to Green Backs. The ABA Secretary James buel authored a letter to the Banks blatantly telling them to subvert not only congress, but also the press.

“It is advisable to do all in your power to sustain such prominent daily and weekly newspapers, especially the Agricultural and Religious Press, as will oppose the greenback issue of paper money and that you will also withhold patronage from all applicants who are not willing to oppose the Government Issue of money.

To repeal the Act creating Bank Notes or to restore to circulation the Government Issue of money will be to provide the people with money and will therefore seriously affect our individual profits as bankers and lenders.

See your congressman at once and engage him to support our interests that we may control legislation.” --
[James Buel, American Bankers Association.](#)

3 Years later in 1881, the people elected Republican James Garfield as President. Garfield understood how the economy was being manipulated. Immediately after his swearing in, Garfield slammed the moneychangers publicly.

“Whosoever controls the volume of money in any country is absolute master of all industry and commerce...And when you realise that the entire system is very easily controlled, one way or the other, by a few powerful men at the top, you will not have to be told how periods of inflation and depression originate.” --[James Garfield.](#)

Unfortunately within a few weeks of making that statement, on July 2nd 1881, President Garfield was assassinated. Having now joined Lincoln, patriot and martyr, whose unnatural deaths enabled an insidious organisation to flourish and further imbed it-self at the expense and misery of the people.
